

User Information Leaflet – Space from Anxiety

What is SilverCloud?

SilverCloud provides convenient secure access anywhere anytime to evidence-based online treatments to help you manage depression and/or stress and anxiety. You will work through a series of topics to address specific needs. This course is designed to be completed in your own time at your own pace. Based on cognitive behavioural therapy (CBT), mindfulness and positive psychology, SilverCloud is both interactive and flexible. Our small team of Supporters within the cCBT Service will be there at regular intervals (approximately every 3 weeks) to encourage and guide you through the modules and sign-post you to resources within the programme that may be particularly relevant to you.

The programme can be run on a desktop or laptop computer, a smartphone (internet-enabled mobile phone) or tablet device.

How will it help me?

This is a supported online therapy which aims to help you develop techniques and tools to manage psychological difficulties. SilverCloud uses CBT to help you make changes to the way you think, feel, and behave.

What is CBT?

CBT is a psychological therapy that works on the relationship between thoughts (cognitions), behaviours and feelings. CBT teaches the individual how to recognise and make changes to thoughts, feelings, and behaviours in the present, rather than focusing on the past. It has been widely studied and is proven to be effective, particularly with depression and anxiety. CBT works best when you actively engage with treatment, the more you engage with the modules the more you will hopefully take from this programme and feel confident in managing your current difficulties. Engaging in this programme will enable the Supporter Team to guide you through the modules and support you to get the most out of the programme.

How to use SilverCloud?

We recommend using SilverCloud for 10-15 minutes 3 or 4 times a week (for a total of 40-60 minutes per week) over 6-8 weeks. You should try to complete modules at a regular time where possible and when you have some quiet time to yourself. As with most things, it may take time and practice to make progress.

Why Use it?

SilverCloud programmes have been shown to be effective in the treatment of stress, anxiety and depression. SilverCloud offers flexibility, you can set your own pace, it is not time consuming, and you don't have to stick to rigid appointments.

How do I access SilverCloud?

You can access SilverCloud through an internet browser or mobile application ('SilverCloud Toolkit' in the Apple Store, and 'SilverCloud' in the Google Play store). In addition to this information leaflet you will receive sign-up instructions in an email sent by SilverCloud/ cCBT service.

Simply click on the "Accept Invite" link in your SilverCloud welcome email and follow on screen instructions.

You should provide a secure username and password, along with your email address. Remember to keep your password safe, you will use this password each time you log in. You will be asked to read the support agreement and complete short questionnaires.

A screenshot of the SilverCloud sign-up form. It includes fields for 'Enter a username', 'Enter a password', 'Confirm password', and 'Email'. There is a 'Sign Up' button at the bottom right. The form also shows 'Password requirements' and navigation links for 'Sign Up', 'Supporter', 'Questionnaires', and 'How it works'.

After these steps have been completed you will be able to get started with SilverCloud.

Where can I complete the programme?

The course can be completed 24/7 in your home or during opening hours at any local library or other community setting using either a desktop computer, laptop, tablet or smartphone.

Is the information I provide confidential?

Yes. You have a username and password so that no-one else can access the details you enter. All your data is stored in an encrypted database. Sometimes data that is routinely collected during the course of treatment will be used for service improvement and evaluation. The information may be shared with other Health Boards, nationally

and with NHS 24. This information is always anonymised. This means that all information that could be used to identify you is removed and your confidentiality is maintained.

What are reviews?

You will find that routinely (approximately every 3 weeks) during online treatment you will be asked to take part in a “review” on an agreed review date. Through the SilverCloud messaging system, you are able to leave key messages for the Supporter Team at any point and the team will then pick up your message at your next review date. You also have the option to share your journal and mood monitoring activities if you wish to do so. During a review you will be asked to complete questionnaires and share any comments that you have. A Supporter from the cCBT service will then provide written feedback and additional advice which will appear on your Homepage and Message page. The role of the Supporter is to guide and encourage you through your treatment programme and sign post you to resources for your needs. **Please note, if you feel you require additional treatment for your mental health please contact your GP or discuss with a Mental Health Practitioner.**

Reporting Suicidal Thoughts

During a review you will be asked if you have had thoughts of harming yourself. If you confirm that you have, the cCBT service will inform your GP the next working day. If you were referred by a Mental Health professional and continue to have contact with them then they will be contacted instead. Below is a list of useful contact numbers if you feel you wish to speak with someone. If you feel you need to speak to someone more urgently then it is recommended that you contact your GP or NHS 24 on 111 to discuss these feelings.

Useful Contact Numbers:

- **Breathing Space** on 0800 838 587. They are open from 6pm to 2am Monday to Thursday, and 6pm to 6am Friday to Monday morning.
- **The Samaritans offer a 24-hour telephone helpline Call on:** 116 123. You can also contact them via email to jo@samaritans.org
- **NHS 24 - 111.** The NHS 24 111 service provides urgent care advice day or night and health and dental support when your GP practice or dentist is closed.
- **In an Emergency call 999.**
