

WOMEN'S SERVICES DIRECTORATE

Appendix 3 LETTER C

Letter to patient re notification of failed home visit

Date.....

Dear

I wrote to you recently informing you of a planned home visit as you had not attended for your last 3 antenatal appointments.

I visited on.....but you were not available.

It is important that you have regular assessments with your midwife, so that the health of you and your baby can be monitored and I am concerned that this has not been done.

As I have been unable to contact you at this visit and you have not been in contact to make other arrangements, a request for further assessment due to concerns of non-engagement to social services will be completed as mentioned in my previous letter.

I can be contacted via the community office on:

Yours sincerely

Community Midwife
